

For Immediate Release

MXI Security Named Finalists in Info Security Products Guide Global Awards

Winners Will Be Honored At Technosium 2008, Silicon Valley - California

Ottawa, Ontario – October 16th, 2007 – MXI Security™ announced today that Info Security Products Guide, published and printed in Silicon Valley and the world's leading publication on security-related products and technologies has named Stealth MXP™, a finalist for the 2008 Global Product Excellence and the 2008 Outstanding Awards in the category Global Excellence in Security Solution for Government. These prestigious global awards recognize security and IT vendors with advanced, ground-breaking products and solutions that are helping set the bar higher for others in all areas of technologies. The Stealth MXP was voted a finalists by more than 11,000 voters from worldwide consisting of end-users, channel partners and readers of Info Security Products Guide. Vendors themselves were not permitted to vote for their products. With over 45 categories, Info Security Products Guide awards are the largest worldwide security recognition from Silicon Valley.

2008 Global Product Excellence and Outstanding Award winners will be honored on January 30, 2008 at Technosium 2008 during the Info Security Products Guide Global Awards ceremony at the Santa Clara Convention Center located in the heart of Silicon Valley, California, USA. MXI Security will be amongst the other key industry players at this event.

Stealth MXP is a fully managed superior FIPS 140-2 Level 2 validated USB based portable security solution, protecting up to 4GB's of data on the move with transparent embedded hardware encryption (256-bit AES) and strong authentication. A single MXP device can satisfy many of the security needs of an enterprise including strong authentication, public key cryptography for email signing and file encryption, digital identities for network logins and single sign on, as well as portable authentication for remote access.

“The Internet revolution probably played the greatest role in helping level business fields worldwide,” says Rake Narang, editor-in-chief, Info Security Products Guide. “Signs of the next generation of IT revolution are now visible and already making an impact worldwide on not just businesses this time but also on social networking and the way each one of us is carving our own identities using the power of an interconnected digital world. Companies such as MXI Security are behind the products and technologies that are fuelling this next revolution. The time is right to play a prominent role and be recognized as a part of this new IT revolution.”

“We are proud to be recognized as a key industry player whose products have been named finalist by Info Security Products Guide,” says CEO, Lawrence Reusing “Behind this distinguished success is our relentless drive to stay customer focused. We believe this recognition from Info Security Products Guide is a clear validation to the fact that our products and services are gaining greater acceptance from existing and new customers.”
